5) The City Municipal Council have approved sanctioned the acquisition of 6595 sqs yards on the Mission Road (Land area within the compound of the United Mission ~~Road~~ School) for forming the sites

6) The estimated cost of acquisition amounts to Rs 78,067- the same being met out of Municipal Funds.

8) The Municipal Comm has forwarded the preliminary declaration statements and has requested orders of Government in the matter

10) The point for consideration is whether, in spite of the protest of the members of the Methodist Mission, the land may be authorised to be acquired as resolved by the Mcl at a cost of Rs 7,80,67 and whether the layout may not be permitted to be executed by the Mission authority in accordance with the plan to be approved by the Bangalore Improvement Trust Board

11) There is certainly some force in the representation made by the Mission authority in this behalf for the present if the Mcl, as the area lends itself admirably for laying out a garden city for the Christians and keep for the Christians community and

it may not be quite desirable to sell the sites to members of the Communities, when would, in the long run, be a source of [illegible] to them, in this view there does not appear to be any necessity for spending a heavy amount of Rs 7,80,000 only for the purpose

Letter dated 25th July 1945 from the General Superintendent Methodist Missionary Society, to the President, City Municipal Council, Bangalore

I see from the local press that the Municipal Council has passed a resolution to acquire the southern side of this compound to provide sites for poor people I understand that the original resolution said 'Poor christian people' but this was subsequently altered The resolution passed is disappointing to us in several particulars

Firstly, it has been the intension of the Mission for some time and a resolution was passed on the subject at our Annual Synod in January to make the land referred to available to a number of families belonging to the Mission for the erection of decent houses The resolution of the Municipality threatens to make this impossible

Secondly, the type of house which it is now proposed to erect on this land is of a kind which will depreciate the value of our whole property

As there is a sufficient number of families belonging to the Methodist Church willing to acquire the land here and to built respectable houses on the land accordingly to any plan approved by the Municipality, I have the honour to request permission to make the land available to those families for the purpose of building

Subject - Representation of the Christian Deputation that waited upon the Municipal Commissioner, and the President, City Municipality,, Bangalore City on behalf of the members of the Methodist Church ~~on behalf of the members of the Methodist Church~~ Bangalore City, regarding the acquisition of land in the Mission Compound meant for poor christians

--

Sir,

We are submitting the following representation on behalf of the poor Christians belonging to the Hudson Memorial Church for your favourable consideration

The question of distributing sites in the Methodist Mission Compound to the poor Christians of this Church was taken by the Quarterly Meeting (Executive Body of the Church), four years ago, in view of the difficulties and hardships that our people have been experiencing in this City to obtain dwelling houses, These difficulties are growing ~~x~~ from year to year on account of the establishment of the Hindustan Air Craft and other factories which have sprung up and are springing up in Bangalore and its surroundings We have all been residents of this City for years We are all of humble means, some being school masters, Government officials, clerks and mechanics, who not been able to acquire sites anywhere and build so far The proposed sites being quite close to Christian activities, like the place of worship, Christian Educational Institutions etc , it would be for the convenience and to the distinct advantage of the Christian Community to be given the opportunity of living on the land in question The Municipality would be going a great service to the community by providing a long felt want of the houseless Christians, enabling them to own houses but also to group together in a Christain Colony for the betterment and furtherance of their religious pursuits

When the members of the Quarterly Meeting and the Church approached the District Synod last year, the Synod thought that unless our request was favourably considered, the poor Christians of this City would be subjected to lot of hardship and they have magnanimously agreed to grant us sites

The General Spperintendent of the District, Rev W Porston, was accordingly making arrangements to grant sites to the poor Christians but to the great disappointment of our people, it has been suspended, as some formalities had to be gone through and on hearing that the Municipality is intending to acquire this land which is proposed to be given to our poor christians

You know, Sir, that the majority and even 99 per cent of them are very poor and their lot has been a hard one Most of them are living in rented houses and great difficulty is being experienced to obtain houses in this City We therefore beg to represent that if there is any proposal to acquire this land, the poor christains would be deprived of the sites, which they have been negotiating about for years and which the Mission authorities would not have agreed to part with but for the helpless condition of the Christians though this is a great inconvenience to the Mission and its needs.

The existence of the Girls' Boarding School and the Girls' Hostel adjoining the proposed sites and also on account of the location of the Christian widows' Home nearby make it undesirable for any one other than Christians to live there

We therefore beg that the proposal to acquire this land may kindly be dropped, so that the General Superintendent of the District and the Committee of the quarterly meeting may proceed to deal with this question and grant sites only to the poor Christains of the Methodist Church, after obtaining the necessary sanction from the Municipality, as per Rules

Sir, Your are one not unacquainted with the conditions of the poor Christians, and we appeal to you to help us, when the long cherished opportunity has come to built houses of our own and to lyve in a Christian Colony

Proceedings of the Bangalore City Municipal Council Meeting dated 27-8-1945

13 Application from the Members of the Methodist Mission requesting that the proposal to acquire the land in the Mission Compound wall may be dropped as it would deprive them of the sites for putting up buildings

Mr M V Narayana Iyengar moved that "the acquisition be not dropped While alloting sites, preference may be given to the poor members of the Christian community, who are homeless

Mr K N Ramaswamy seconded it.

Mr D Venkataramanappa opposing the above said that the plot originally belonged to the Christians from whom it was proposed to acquire and that it was but right that the sites formed there should be set apart for the houseless persons of that community As already resolved, they should give these people all the sites

Mr G Nanjappa observed that the subject before them was the consideration of the application of the Christian Association (Methodist Mission) and they might confine their decision to that alone, whether to accept or reject the prayer The question of allotment of sites might be considered after the acquisition was completed and sites were formed there It was not desirable to ear-mark sites for particular communities like this

Mr Ramalal Thiwari observed that since there was no separate colony for the Christians, it was but right that they should be given some sites

Mr W F Hanumanthappa observed that this acquisition was being taken up at the cost of public funds and hence such allotment of sites might not be quite proper If necessary, this question of sites might be considered later on

The Commissioner observed that if it was the intention of the Council that sites should be formed and given over to these applicants, then, there was no need for the Municipality to take all the trouble of acquiring the land etc They may as well straightaway leave the plot to be laid out by the applicants who were willing to do so as per plan of the Municipality and the Trust Board

Mr C Chenniah agreed with the views expressed by the Municipal Commissioner

Mr D Venkataramanappa said that though what the Commissioner had said was reasonable, yet, they were afraid that if the whole thing was left to the Association, it was better the whole scheme was worked out by the Municipality

Mr M F Narayana Iyengar replied to the objections raised by stating that the object of the acquisition was to benefit the poor of the community also and so the acquisition proceedings might be proceeded with

Resolution - The acquisition of the property be dropped That at the time of allotting sites in this layout, preference be shown to the poor and houseless members of the Christian community in B'lore City.
